

Attached is a unit on morphology for kindergarten. Some of the things in the attachment are:

- 1) Suffix Deck for k-1: print on red card stock (stop sign: similar-sounding Suffixes will pose problem.
- 2) Prefix deck: print on yellow card stock (warning: chameleon prefixes)
- 3) Kindergarten / 1st grade introduction sheets for the morphemes – I go

Over procedures: show prefix, say it, say meaning ,students repeat,

They write three times as they say the prefix

- 4) Students then brainstorm words with the prefix – if they cannot, teacher will guide using the words in the back of the cards
- 5) Teacher writes on board, student copies on sheet
- 6) Sheet then goes into a book called the Latin Book
- 7) Base cards for kindergarten and for 1st grade (in green: phonetic, no problem, etc.)
- 8) See directions on word building in the handout for teachers.

Since, I am now having kindergarten and 1st teachers do morphology, gotta give them materials that fit their grade levels.

Ron
