

Morphology for Kindergarten/1st Grade Introduction Sheets

**Prefixes
Suffixes**

by

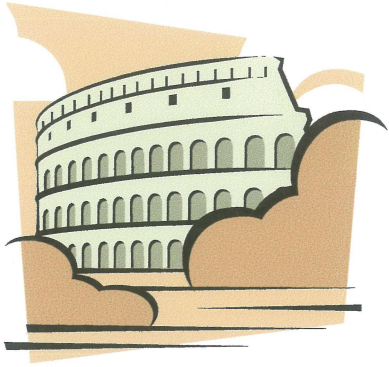

Ronald Yoshimoto

Kindergarten/1st Grade Morphology: Introduction

Procedures:

1. Give each student a prefix or suffix introduction sheet.
2. Show card (prefix or suffix card). Say the morpheme. Students repeat. Note the position - beginning or end of a word
3. Teacher writes on board and students write on their sheet as they say the morpheme.
4. Teacher gives meaning and students repeat. The meaning is already on each sheet.
5. Students write the morpheme three times as they say the prefix or suffix.
6. Teacher asks students to brainstorm words that have the prefix or suffix. Teacher asks for the meaning of the new word (ful - hopeful - having/full of hope). Teacher writes on the board and the students write on their sheet. Note that the smaller box is for the morphemes.
7. If the students cannot come up with words, teacher will give cues (less - without hope - hopeful: teachers says *without hope* and students say *hopeless*). Students then write on their sheet.
8. Teacher will complete the sheet.
9. Students will then place the sheets in their Latin folder.

Prefix

mis-

(wrong, bad)
