

## Kindergarten/1st Grade: Morphology Practice with Base Words

### Directions:

- 1) Use the prefix cards (yellow) and the suffix cards (red) to introduce these morphemes. See procedures.
- 2) Place the suffixes and prefixes that you have covered on the board - prefixes on the right and suffixes on the left with space in the middle for the base words.
- 3) Place a Kindergarten or 1st grade base word on the board. Students read the base word. Then note that one way to build words is by adding suffixes or prefixes to the base word. Say the word with the meaning of a suffix or prefix added to the base words. The student gets the appropriate suffix or prefix and add to the base word.

re

ing

un

read

ed

mis

er

able

ful

less

Teacher says: "able to read". Student adds *able* to the base word.

Teachers says: "read again". Student adds *re* to the base word.

Teacher says: "reads wrong". Student adds *mis* to the base word.

Teacher says: "not able to read". Student adds *un* and *able* to the base word.

- 4) Place a number of base words under the prefixes and suffixes. Say the base word with the meaning of a prefix or suffix added on. Student gets both the appropriate base word and the appropriate prefix or suffix and build the word in the middle of the word. Student reads the new word.
