

Hints and Tips ee or ea?

- ee** Both letter combinations can be used at the beginning of a couple of words
erie
each
- see** We use our 2 eyes to see, so we use 2 e's.
sea The other 'sea' must have [ea].

see 2 eyes. 2 ee's. [ee]
seen This is past tense. So we **did** use our 2 eyes, so we use 2 e's [ee]
seem We have used our eyes again, to tell what something looks like (or appears to be)
2 eyes. 2 ee's. [ee]
- cheek** Parts of the body use [ee]
teeth But NOT **ear**...
knee
heel
feet

This now helps with the following pair of homophones

- seen** If it's not the one that uses our 2 eyes, it is not the word with [ee]
scene
Seem
seam
sea We know this is the one with [ea] because we don't use 2 eyes.
beach We know that the **sea** is at the **beach**. So, beach must have **ea** too.

Remember that the word '**knee**' starts with a silent letter... **knee** and so will the word '**kneel**', because we are using our **knee** to **kneel**!!

- meal** Our evening **meal** is often called **tea**.
tea For **tea** we can **eat meat** with **peas** or **beans** and a **bread** roll made from **wheat**.
eat
pea We like vegetables with our meat but not **cheese** or **beetroot**! (They use '**ee**!')
bean Then for dessert, we can have a **peach** with **cream** and **icecream**.
wheat
peach Then we drink a cup of **tea**. For supper we can have **peanuts**.
cream
ice-cream
peanut

In other words, if it is to do with food or eating, use the letters '**ea**' (but not for cheese and beetroot).

- meat** We know to use '**ea**' because it is food.
meet This is the other word, we are not eating it - so use the letters '**ee**'
bean Again, we know to use the letters '**ea**' because it is food.
been This is the other word. We are not eating it so use the letters '**ee**'

- When '**-ze**' is at the end of a word, use '**ee**'.
When '**-se**' is at the end of a word, use '**ea**'
