

DYSLEXIA
ORTON-GILLINGHAM
INSTITUTE
AUSTRALIA

Hello!

Welcome to Yoshimoto O-G Basic Training. Our vision is to reduce the rates of Australian children requiring literacy intervention at school, and improve literacy and numeracy nationally, by introducing teachers to the Yoshimoto Orton-Gillingham approach.

Our passion is to provide high-quality instruction in written language and share what is an effective method for teaching ALL students to read and spell. We hope you are looking forward to the week ahead. We certainly are!

DOGI (Dyslexia Orton-Gillingham Institute Australia) is excited to be able to provide training in the Yoshimoto O-G approach, which is accredited by the International Dyslexia Association. DOGI Aus. has been established with the guidance of Ron Yoshimoto (Orton-Gillingham International) in order to provide his Yoshimoto Orton-Gillingham Basic training here in Australia.

All presenters have completed practicum hours, supervised by Ron, as well as further training with Ron to become trainers. Ron continues to maintain and grow his relationship with our trainers and we regularly give him feedback on the training courses completed here in Australia.

Objectives and Learning Outcomes

- Participants will gain an understanding of the essential components necessary for reading success.
- Participants will identify reading issues of students and plan a course of action.
- Participants will understand the learning needs of students with dyslexia or other Specific Learning Disorders in Reading and Written Expression.
- Participants will be taught a scope and sequence for teaching phonology and syllabication and introduced to morphology .
- Participants will learn how to develop and implement a structured and multisensory lesson plan.

AUSTRALIA

Participants will:

- acquire knowledge of structured multisensory procedures for teaching reading and spelling skills including:
 - Sounds
 - Syllabification
 - Blending
 - Learned words
 - Dictation
 - Word fluency
 - Oral reading
 - Fluency
 - Reading comprehension.
- learn correction procedures and a diagnostic/prescriptive approach to teaching reading and spelling.
- learn how to apply and incorporate O-G in individual, small group and whole classroom settings.
- learn differentiation and scaffolding strategies as well as strategies for integrating vocabulary development, grammar, thinking skills, writing, etc.

Enjoy what will be a fun and fabulous time of learning!

Regards,
The Team at DOGI Australia
