

Alphabet Sequencing and Fluency

Procedures:

- 1) Start with “a to e” alphabet strip. Have student(s) read the letters as they point to the letters with their fingers. They read for a second time but faster as they point to the letters. They do this again for a third time.**
- 2) Have them close their eyes and say the letters.**
- 3) Then give the other “a to e” strips with the missing letters. Have the students read the letters and the blanks (missing letters) as they point to the letters.**
- 4) On the next lesson, do the “f to j” cards and proceed to the “f to j” cards with the missing letters.**
- 5) Continue the process. Cards 6, 7, 8, 9 are the last cards in the sequence.**
