

Alphabetizing Skills

Directions: Give each child an alphabet strip. Have them read the letters from “a” to “z” as they point to each letter. Have them find the letter that is before or after a letter selected by the teacher. Later, group the letters into quartiles - a to f, g to m, n to t, and u to z. Ask students to name the letters in the first, second, etc. quartiles. Ask students what letters are before/after the second, third, or fourth quartiles. Continue asking other questions.
