Learned or Red Flag Words

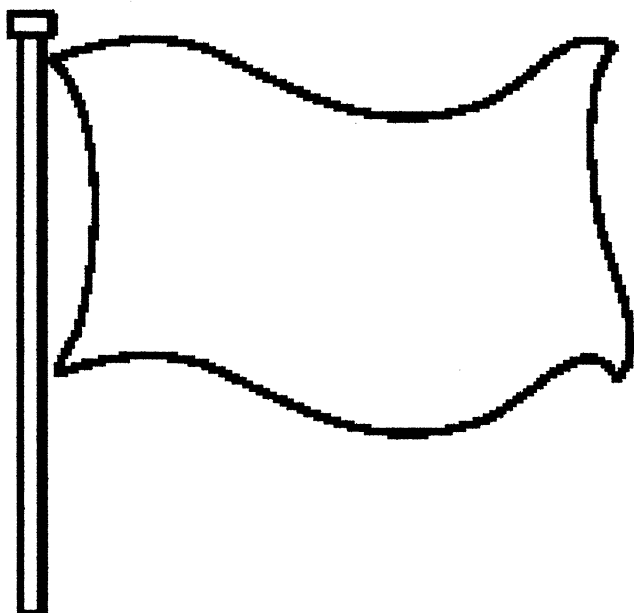

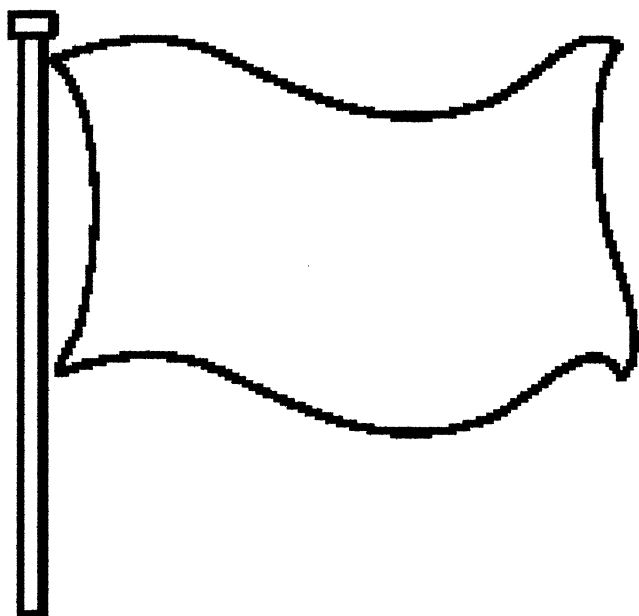

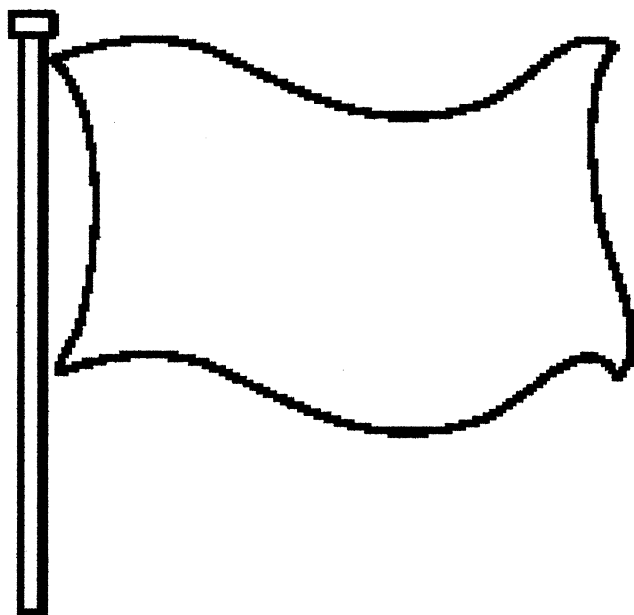

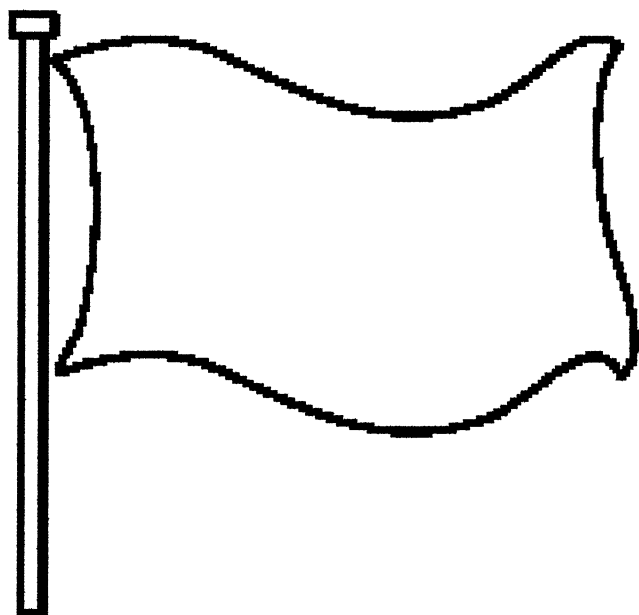

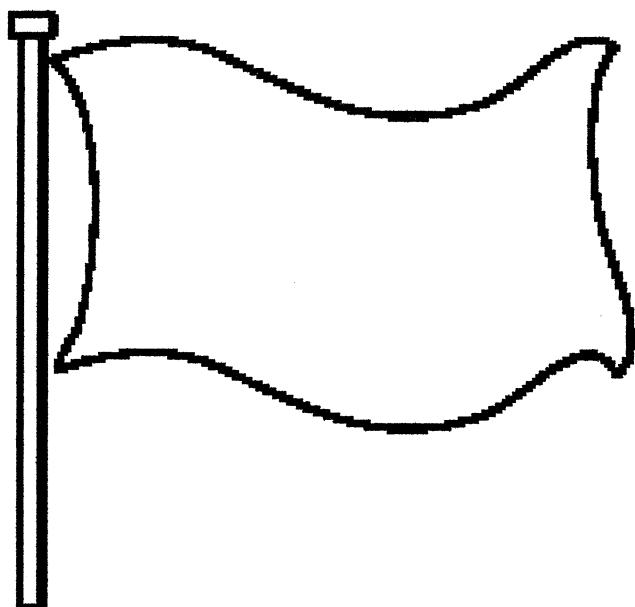

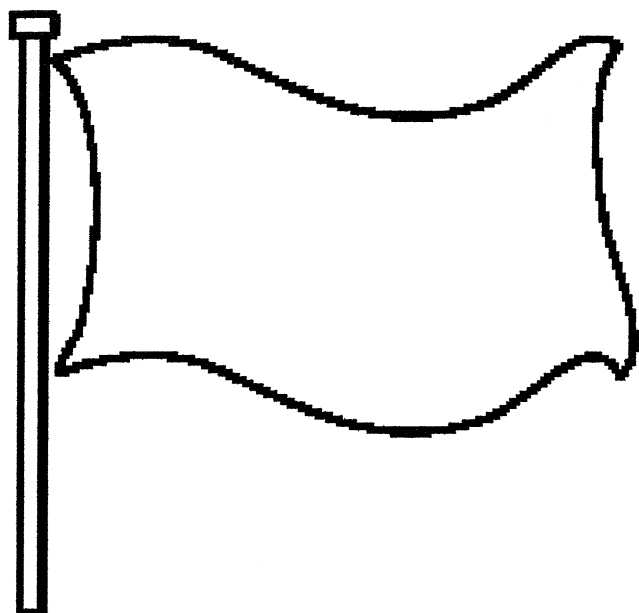

Learned words cannot be sounded out. They are nonphonetic words that require different procedures for teaching spelling:

1. Teacher writes word on board or large card (red flag template)
Says word and letters
2. Student repeats. Copies and says letter names as he writes & reads word. Student writes it 3 more times saying letters and reading word after each time he writes it.
3. Student closes eyes and traces in air as he says letter names.
4. Quiz: cover word and child spells and checks (letter by letter).

	t	h	e	y	
					(t-t, h-h, e-e, y-y)
quiz	t	h	e	y	

5. Place the red flag word on the “word wall” for easy reference by the students.
6. Write the words on smaller cards (see template- up to List 5) and place them in the ring. Once a week, have students read the learned words they have studied (as fast as they can).
7. Play learned word bingo (see Bingo sheet)
