

Syllabifraction Quilt

Directions: Cut out the large square. This will be your syllabifraction quilt. Then paste on the pieces that you will cut out from the next page (cut out the squares and then cut the squares so you will have four triangles). You must match the pieces (triangular shapes) together so you will have equivalent fractions next to each other. These will also form two-syllable words. Color the remaining sections of the quilt.

Syllabifraction Quilt (Pieces)

Directions: Cut out the squares and then the triangular pieces. Match these pieces so that equivalent fractions are next to each other. These pairs will also form two-syllable words. Paste them on the quilt pattern.
